

Current Volunteering Opportunities with the UK Mathematics Trust

Expression of Interest Form

Thank you for your interest! We will send you more information soon.

Join the growing number of UKMT volunteers and help us to advance the education of young people in mathematics.

Assisting at the Senior Team and Team Challenge Regional Finals *

We are looking for people to run the Senior Team and Team Challenge events in specific regions. Helping at the team events requires a commitment to attend training (held at weekends). Some general administrative and organising assistance is also needed on the day of the events. Experience beyond higher GCSE maths is not required.

Mentoring *

Assisting mathematically able secondary school students with mathematical problem solving via email. Good communication skills are essential.

Event / Session leaders at Mathematical Circles *

Giving a session at one of our Mathematical Circle events for high ability pupils aged 14-16.

Event / Session leaders at Summer Schools *

Leading, or giving a session at, one of our UKMT Summer Schools for high ability pupils aged 14-16.

Setting and Checking Competition Questions

Involves generating mathematically challenging questions for multiple-choice, full written solutions format answers, and Team Challenges. In particular we are looking for assistance with the production, typesetting and checking of Primary Team Maths Resources.
